ADDENDUM # 1

Date: April 11, 2006

To: Contractors

From: Dan Clark,
Division of Facilities & Construction Management, Project Manager

Reference: Parks & Recreation Motocross Track Improvements
DFCM Project No: 05261510

Subject: **Addendum No. 1**

Pages	Addendum	2 page
	Bid Form	2 pages
	Total	4 pages

Note: This Addendum shall be included as part of the Contract Documents. Items in this Addendum apply to all drawings and specification sections whether referenced or not involving the portion of the work added, deleted, modified, or otherwise addressed in the Addendum. Acknowledge receipt of this Addendum in the space provided on the Bid Form. Failure to do so may subject the Bidder to disqualification.

1.1 Modification to Schedule: No Changes in Schedule.

1.2 The Contractor shall use the accompanying Bid Form Titled "Addenda #1 Dated April 11, 2006" in place of the Bid Form provided in the original Project Manual.
Changes to the Bid Form Items are;

1.2.1 Item # 11 - Quantity changed from 5 to 6.

1.2.2 Item # 12 - Quantity changed from 10 to 12.

1.2.3 Item # 18 - New Bid Item.

1.2.4 Item # 19 - New Bid Item.

- 1.3** The Self Cleaning Intake Screen shown in Detail A, Sheet C-503 shall be a Lakos Model No. 1415, w/18 mesh screen rated for 650 gpm max or approved equal. This screen shall be installed in accordance with all manufacturer's recommendations.
- 1.4** Bid Item No. 6 "UP&L power extension across Redwood Road" shall be bid at the amount of \$10,000.00 for all Bidding Contractors.
- 1.5** The Shed Electrical Panel, Building Electrical Controls (light switches,etc), and Irrigation Controller shall be mounted on a single Uni-strut support mounted in the Shed's concrete pad. They shall not be mounted on the Shed's interior or exterior walls.
- 1.6** The Contractor shall furnish and install an 8" gate valve and valve box on the inlet (8" HPDE non-pressurized) pipe coming into the pump house vault from the Jordan River. Such a valve shall be located within 4' of the wall of the Shed and be clearly accessible.
- 1.7** The Contractor shall furnish and install a 6" gate valve on the outlet (pressurized side) pipe before the quick coupler valve shown at approximate Grid A-3 in Detail B on Sheet C-503 to isolate the irrigation system from the pumps for winter maintenance.
- 1.8** The Contractor shall install the outlet (pressurized) pipe at the pump house such that it enters the ground (using two vertical joints with mega-lugs or thrust-blocking) inside of the Shed such that the shed can easily be un-bolted and removed for access to the pumps, pressure tank and manifold in the event maintenance is required without creating the need for the piping to be disassembled. The outlet (pressurized) pipe shall not penetrate the Shed wall.
- 1.9** The electrical connections from the Electrical Control panel mounted on a Uni-strut shall be connected to the building lights via electric plugs located near the base of the Sheds walls and that are easily accessible to provide for an expedited disconnection of the electrical services for the removal of the Shed when pump maintenance is required.
- 1.10** The electrical connections from the Irrigation Controller located on the Uni-strut inside the pump house shall connect to the irrigation system (valves at water cannon) via a buried PVC conduit. Such connection and conduit shall not penetrate the Shed's walls but shall proceed under the shed through the concrete pad.
- 1.11** The concrete vault underneath the pump house may be reduced in size from a 5'x10'x9' interior dimension to a vault size of 5' width x 5' length x 9' depth interior dimensions. The vault shall have a man accessible opening as required by the pump manufacturers.
- 1.12** The contractor may use a cofferdam for the installation of the inlet pipe and self cleaning head in the Jordan River. The contractor shall use an aquabarrier cofferdam (aquabarrier.com) or approved equal. The cofferdam shall be made of natural materials but shall be of the removable type. The cost of the installation and removal of the cofferdam shall be included in the lump sum cost of the pumphouse.

End of Addendum
